JAS SHROFF

Software Engineer | Full Stack (React, Node.js, REST APIs)

Pune, Maharashtra, India | +91-7806034035 | Jasshroff1@gmail.com | linkedin.com/in/jasshroff | github.com/jasshroff

PROFESSIONAL SUMMARY

Full stack engineer with three internships shipping production React and Node.js features, REST API design and testing, and MongoDB-backed real-time systems. Comfortable owning a feature from API endpoint to UI and iterating through code review.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS

Frontend: React.js, Tailwind CSS, Bootstrap

Backend & APIs: Node.js, Flask, REST API Design, WebSockets, Socket.io

Databases: MongoDB, MySQL

Practices: Git, Code Review, Testing, Debugging, Agile

EXPERIENCE

Full Stack Web Developer Intern — Codtech IT Solutions Pvt. Ltd. *(May 2025 – Jul 2025)*

- Shipped 3 full stack applications and 1 Chrome extension in 8 weeks, building and testing REST API endpoints and React.js interfaces under senior code review.
- Built real-time collaboration across two applications with WebSocket and Socket.io backed by MongoDB, sustaining stable concurrent multi-user sessions.
- Debugged third-party API response handling and edge cases to ship Weather and OpenStreetMap integrations to production.

Frontend Web Developer Intern — Cognifyz Technologies *(Feb 2025 – Mar 2025)*

- Rebuilt page components in React.js with Tailwind CSS and Bootstrap, improving design quality metrics by 80%.
- Developed and tested modular React.js UI components in collaboration with the design team.

AI Research Intern — VIT Bhopal University *(May 2026 – Present)*

- Engineered and debugged CNN and Vision Transformer pipelines in Python for multimodal deepfake detection.
- Delivered an authenticity-scoring dashboard, debugging integration between the model backend and the visualization layer.

PROJECTS

InVenTO – Retail Inventory & Billing *(Mar 2025 – Apr 2025)*

Tech: React.js, TypeScript, Node.js, Flask, MySQL

- Built a full stack inventory and billing system with a MySQL-backed Flask REST API and a React/TypeScript frontend.
- Implemented role-based access control and automated report generation.

EDUCATION

D. Y. Patil International University, Akurdi | B.Tech. CSE (AI & ML) | CGPA 7.04/10 | 2023–2027

CERTIFICATIONS

- Retrieval-Augmented Generation (RAG) with Embeddings & Vector Databases — Coursera
- Joy of Learning: C Programming — D. Y. Patil International University

ACTIVITIES & LEADERSHIP

- Convenor, TechForNeed Robotics Club (Jan 2026–Present)
- Head of Technical Department, TechForNeed Robotics Club (Aug 2025–Dec 2025)
